PART 1, FEBRUARY 1991

K. A. Quinn: Acute immunization with EPF suppresses the formation of immune ascites in BALB/c mice 1

R. B. Ashman, P. H. Kay, D. M. Lynch and J. M. Papadimitriou: Murine candidiasis: Sex differences in the severity of tissue lesions are not associated with levels of serum C3 and C5 7

V. Ruszala-Mallon, J. Silva, A. L. Lumanglas, F. E. Durr and B. S. Wang: Depression of cell-mediated immunity in plasmacytoma-bearing mice 11

G. T. Layton, S. C. Johnston and N. G. Bertwistle: Serum factors affecting the specificity of anticardiolipin antibodies 17

A. B. Kulkarni, A. Müllbacher and R. V. Blanden: Effect of high ligand concentration of West Nile virus-specific T cell proliferation 27

N. Manolios, B. Bakiera, C. L. Geczy and L. Schrieber: Arachidonic acid metabolites in normal and autoimmune mice do not influence lymphocyte-high endothelial venule interactions 39

R. A. Hall, G. W. Burgess, B. H. Kay and P. Clancy: Monoclonal antibodies to Kunjin and Kokobera viruses 47

Brief Communication

P. M. O'Brien, J. S. Rothel, H-F. Seow and P. R. Wood: Cloning and sequencing of the cDNA for ovine granulocyte-macrophage colony-stimulating factor (GM-CSF) 51

Letter to the Editor 57

Book Reviews 59

PART 2, APRIL 1991

Review

D. C. Poskitt, M. J. B. Jean-Francois, S. Turnbull, L. Macdonald and D. Yasmeen: The nature of immunoglobulin idiotypes and idiotype–anti-idiotype interactions in immunological networks 61

A. B. Kulkarni, A. Müllbacher and R. V. Blanden: Functional analysis of macrophages, B cells and splenic dendritic cells as antigen-presenting cells in West Nile virus-specific murine T lymphocyte proliferation 71

M. G. Lowe, S. R. Holdsworth and P. G. Tipping: T lymphocyte participation in acute serum sickness glomerulonephritis in rabbits 81

B. Charlton, R. Guymer, R. M. Slattery and T. E. Mandel: Intercellular adhesion molecule (ICAM-1) inhibition can induce tolerance *in vivo* 89

H. C. O'Neill: Identification of Class I H–2D^{b} molecules primarily expressed by B lymphocytes in murine spleen 95

P. J. O'Connell, R. Faull, G. R. Russ, A. J. F. d'Apice: VLA-2 is a collagen receptor on endothelial cells 103

N. Yang and B. Boettcher: Conversion of the human blood group H antigen to A antigen *in vitro* 111

D. M. H. Hameleers, I. van der Ven, J. Biewenga and T. Sminia: Mucosal and systemic antibody formation in the rat after intranasal administration of three different antigens 119

R. B. Lal: Monoclonal antibodies to secreted antigens of *Brugia malayi* define a cross-reactive non-phosphocholine determinant on helminth parasites 127

J. M. Greer and W. J. Halliday: Distinctive molecular markers and biological activities in two tumour-specific murine T suppressor factors 135

Brief Communication

H. C. O'Neill: Detection of Class I MHC antigens on glycosidase-treated cells 145

Book Reviews 149

PART 3, JUNE 1991

S-O. Lee and R. D. Poretz: Hybrid myeloma cells which secrete heterodimeric IgG: A model to study the *N*-linked glycan 151

H. C. O'Neill: Monoclonal antibodies which identify carbohydrate-defined MHC Class I epitopes 159

R. L. Kerlin and B. L. Pike: Spontaneous and cytokine-inducible 'natural' immunoglobulin secreting cells in organized lymphoid tissues of mice 167

P. G. Kerr and R. C. Atkins: Deoxyspergualin inhibits cytotoxic T lymphocytes but not NK or LAK cells 177

K. Hamano, Y. Fujikura, S. Fukuda, K. Esato and T. Fukumoto: The effect of intrathymic injection of donor blood on the graft versus host reaction and cardiac allograft survival in the rat 185

S. L. Adams, D. Barnett, B. J. Walsh, R. J. Pearce, D. J. Hill and M. E. H. Howden: Human IgE-binding synthetic peptides of bovine β-lactoglobulin and α-lactalbumin. *In vitro* cross-reactivity of the allergens 191

A. M. Brodie and W. J. Halliday: Suppressor cells and soluble factors from the spleens of UV-irradiated mice 199

M. V. Agrez, F. K. Chua, K. Fagan, J. W. Heath and N. W. Ferguson: A human colon cancer cell line established from collagen matrix cultures transplanted into nude mice 205

I. G. Colditz: The induction of plasma leakage in sheep skin by histamine, bradykinin, activated complement, platelet-activating factor and serotonin 215

Book Reviews 221

PART 4, AUGUST 1991

D. A. Raftos, D. L. Stillman and E. L. Cooper: Interleukin-2 and phytohaemagglutinin stimulate the proliferation of tunicate cells 225

A. Sodhi, A. Suresh and S. M. Singh: *In vitro* activation of rGM-CSF derived bone marrow macrophages by cisplatin lipopolysaccharide 235

M. R. Dalesandro, J. B. Skeath, D. R. Dorer, M. M. Snyder and J. A. Owen: Temporal variations in the fine specificity of IgM anti-fluorescyl antibodies 243

E. J. Favaloro: CD-13 ('gp150'; aminopeptidase-*N*): Co-expression on endothelial and haemopoietic cells with conservation of functional activity 253

K. M. Weston and R. L. Raison: Low affinity binding of mouse immunoglobulin to human $CD5^+$ B cells 261

A. D. Nash, G. J. Barcham, M. R. Brandon and A. E. Andrews: Molecular cloning, expression and characterization of ovine TNFα 273

Review

A. Eglezos, P. V. Andrews, R. L. Boyd and R. D. Helme: Modulation of the immune response by tachykinins 285

Book Reviews 295

PART 5, OCTOBER 1991

I. Kotlarski: To mark the 21st anniversary of the foundation of the Australian Society for Immunology 299
I. R. Mackay: The 'Burnet of Era' of immunology: Origins and influence 301
D. Rowley: The early history of the Australian Society for Immunology 307
K. J. Turner: Australian Society for Immunology: The 1970s 309
G. F. Mitchell: Some highs of cellular immunology in the late 1960s, early 1970s: Personal reflections 313
C. Cheers: Australian Society for Immunology in the 1980s 317
G. R. Shellam: The Australian Society for Immunology in the 1990s and beyond 323
G. J. V. Nossal: Some landmarks in Australian immunology 327
D. R. Fitzpatrick, J. Wie, D. Webb, R. Bonfiglioli, I. D. Gardner, J. D. Matthews and H. Bielefeldt-Ohmann: Preferential binding of *Chlamydia trachomatis* to subsets of human lymphocytes and induction of interleukin-6 and interferon-gamma 337
C. Olive, P. A. Gatenby and S. W. Serjeantson: Analysis of T cell receptor V_α and V_β gene usage in synovia of patients with rheumatoid arthritis 349
M. Asami, M. Owhashi, T. Abe and Y. Nawa: Susceptibility of multipotent haemopoietic stem cell deficient W/W^v mice to *Plasmodium berghei*-infection 355

PART 6, DECEMBER 1991

S. J. McClure, B. M. Wagland and D. L. Emery: Effects of Freund's adjuvants on local, draining and circulating lymphocyte populations in sheep 361
S. A. Weston, R. L. Tellam and C. R. Parish: Dextran sulfate induces changes in the free intracellular calcium ion concentration of a subpopulation of immature thymocytes 369
M. Abolhassani, J. K. Tillotson, J. Chang and J. W. Chiao: Regulation of human lymphocyte proliferation by a tumour cell-derived DNA fraction 377
C. E. Gibson, B. A. Eglinton, I. A. Penttila and A. G. Cummins: Phenotype and activation of milk-derived and peripheral blood lymphocytes from normal and coeliac subjects 387
M. Griffiths and D. Keast: The effects of a leukaemia-controlling dose of acivicin on murine splenic lymphocytes *in vitro* and *in vivo* 395
S. A. Ishijima, H. Asakura and T. Suzuta: Participation of cytoplasmic organelles in E-rosette formation 403
H. Zola, P. J. MacArdle, T. Bradford, H. Weedon, H. Yasui and Y. Kurosawa: Preparation and characterization of a chimeric CD19 monoclonal antibody 411

Brief Communication

M. Lipoldová and V. Holáň: Interleukin-2 activates the γ-interferon gene in newborn mice 423
R. B. Ashman and J. M. Papadimitriou: Chronic osteomyelitis as a consequence of systemic *Candida albicans* infection 427
